RENEWAL NOTICE OF ADDITIONAL FEE

THE COMMISSIONERS COURT OF NAVARRO  
COUNTY HAS DETERMINED THAT A RECORDS  
ARCHIVE FEE OF \$10.00 IS NEEDED TO PRESERVE  
AND RESTORE DISTRICT COURT RECORDS.

EFFECTIVE 1/1/2014

## ARCHIVE PLAN

### **Introduction**

Currently, this office is the custodian of records dating back to the mid 1800's. We are transferring records that were initially only on paper, and those on microfilm, into a digital format and into one program that can be easily retrieved for county and public use. Our ultimate goal is for the District Clerk, Judges and Attorneys to use a more efficient and "paper-on-demand" system. With our current and rising workload, the instilment of a paper-on-demand system with efficient, easy retrieval will be pivotal to the success of the program.

### **Designation of Court Documents subject to the plan:**

All civil and criminal case files, pending, final or closed. Any other document filed in this office that is subject to the District Clerk's retention schedule.

### **The Process**

To accomplish the disposition of records dating back 160+ years, different methods will be considered.

The archiving of the continuity of records filed daily is done through our software program. Items are scanned to the software as they come in and are categorically linked to case numbers and names as an index. Older records that are only on paper are not secondarily stored anywhere else.

Different companies offer a variety of services and prices in order to "organize" our vault.

Our current process digitizes documents, but leaves us with the task of delegating different retention dates of records to see what can be destroyed. The Texas statutes are very complex on the subjects of what documents can be destroyed and when those said documents can be destroyed.

Some companies offer the capability to give a monthly report to the District Clerk of when records have reached their retention dates based on the electronic file. From there, our office simply pulls the paper file and we shred the appropriate document(s). It keeps the burden of the retention research to the third party

company rather than the Clerk's office, and helps prevent the accumulation of unnecessary records. With the appropriate equipment, employees can scan the older files into our system without the need of 3<sup>rd</sup> party vendors.

### **The Goal**

I, as Clerk of the 13<sup>th</sup> Judicial District, hope to reproduce and archive all documents, regardless of type, as efficiently as possible. I want to achieve, produce and maintain a navigable and organized records vault. The District Clerk's office is also planning the process of restoring historical hand-written records, suspending their deterioration and improving public access.

To complete our efforts toward electronic storage of all case files, we envision maintaining closed cases on our shelves for a short period of time and using computers to access information instantly.

With less cost to the county, we will continue this ongoing and efficient process by using the archive fee and technology to cover the cost of scanning paper source documents. In addition to preserving the documents, the images will be added to our existing imaging system while improving our customer service relations. Additionally, significant space savings will be realized once paper documents are destroyed.

A portion of the closed cases have been scanned and preserved. The approximate annual cost of this program **currently** is \$40,000.00. With a competitive market and a fiscally conservative plan, there is no way to know an exact figure that it would take to get our records entirely in order. The renewal of the state mandated fees are imperative to the integrity and accuracy of our archival program.

**Possible Expenditures**, possibly including but not limited to:

- Computer hardware, including any and all peripherals necessary,
- Computer software,
- Service provider and other outsourcing services,
- Relevant staff salary
- Data storage supplies
- Travel expenses to and from a service provider to deliver and pickup case documents, if necessary.
- Offsite storage unit costs
