AUDITOR'S OFFICE

Dear Christine Lunger:

Your preventative maintenance contract with ISI Commercial Refrigeration on your refrigeration and/or ice machines listed on the next page will expire on 05/31/2015.

If you would like to renew the contract for another year you may simply sign the bottom of this letter and fax or mail it to us. The price to extend your preventive maintenance contract for another year is only \$695.50 plus tax if applicable. This entitles you to continue to receive the same valuable benefits that you have currently been enjoying.

Upon receipt of this letter signed by you we will send you an invoice for payment.

If you would like to pay by credit card, please call us at 469-240-7200 extension 7274, or you may simply return this letter signed below with your check for faster processing.

We want to thank you in advance for your business and hope we can continue the preventative maintenance program for you.

Best Regards

Ron White

Planned Maintenance Program for Ice Machines, and or Refrigeration Equipment

Ice machines and/or refrigeration equipment represents a sizable investment of time and money for any business. In order to receive the best return for that investment your equipment **MUST** receive periodic maintenance.

It is the **USER'S RESPONSIBILITY** to see that the unit is properly maintained. It is always preferable and less costly in the long run to minimize down time by keeping the equipment clean, adjusting it as needed, and replacing worn parts before they cause a machine failure. Maintenance and cleaning should be scheduled at a **MINIMUM** of four times per year.

ISI has put together a program to help optimize the life expectancy of your ice machine and minimize down time. Under this program, ISI will perform the following maintenance on the listed equipment 4 times per year, at 3 month intervals. **Check the box below for services included in this renewal.** Please note that if you are adding additional services and or equipment additional charges will apply:

Ice Machines

1. Clean the entire recirculating water circuit with ice machine cleaner
2. Check and flush out drain lines on the ice machine and bin, only if bin is empty upon arrival
3. Sanitize all accessible surfaces that come in contact with ice
4. Check and adjust water levels and ice making controls
5. Check bin switch/thermostat operation
6. Lubricate accessible bearings
7. Check and clean air-cooled condenser and air filters
8. Check and correct all loose wiring and vibrating refrigerant lines
9. Perform visual inspection for refrigerant leaks and faulty components
10. Submit an itemized list of any recommended repairs for customer approval

Refrigeration Equipment

1. Clean evaporator coils and check fans for proper operation, on walk-in coolers only
2. Clean condenser coil, check and oil fan motors (if applicable)
3. Check refrigerant and charge and operating pressure
4. Check and correct all loose wiring at controls and vibrating refrigerant lines
5. Check and set all defrost times
6. Check all defrost heater for proper operation (if applicable)
7. Check all door and vent heaters (if applicable)
8. Submit and itemized list of all recommended repairs for customer approval

In addition, this program entitles you to the following benefits on all covered equipment:

1. A **50% DISCOUNT** on all trip fees from any additional service work performed during regular business hours
2. A **10% DISCOUNT** off the list price on all parts used for any additional service work performed
3. **PRIORITY** handling of your service needs
