PRESERVATION AND RESTORATION RECORDS ARCHIVAL PLAN

COUNTY CLERK

PRESERVATION AND RESTORATION RECORDS ARCHIVAL PLAN

EXECUTIVE SUMMARY

The County Clerks office wants to take advantage of new legislation that is designed to preserve archived records by adding an archive fee to each filed or recorded document. This fee is to be dedicated to that task. The vast majority of the permanent records in the County Clerks office are paper based. These records are used on a daily basis by the public and are vulnerable to loss by theft and wear and tear.

With no cost to the County, these records can be preserved by adding an archive fee to cover the cost of microfilming the paper based documents.

Additionally, significant space savings will be realized where documents are currently larger than legal size. During the preservation and restoration process, these documents will be reprinted to legal size paper.

INTRODUCTION

Currently, Counties adjacent to international borders have the ability to charge a records archive fee not exceed \$5.00 for the recording or filing of public documents in county clerks offices. SB 1731 removes "adjacent to international borders" restriction and opens the fee to all Texas counties. S.B. 1731 provides for a fee not to exceed \$5.00 to be imposed for recording or filing public documents in county clerk offices in any county for the purpose of preserving, restoring, and managing county records.

County Clerks are currently authorized to collect a records management fee for maintaining and preserving current documents. In most cases, this fee is not sufficient to also preserve and restore archived records. This new legislation is designed to target archived records.

This bill authorizes the commissioner's court to adopt a records archive fee as part of the county's annual budget. If the provisions of SB 1731 are implemented, the county will experience a revenue gain. This additional revenue will be dedicated to helping county clerks focus on preserving older records.

The effective date of this Act is September 1, 2003 and expires September 1, 2008.

Effective June 17, 2005 SB 526 repeals the sunset date and lets the County Clerk designate the records, instead of it only covering recordings prior to 1/1/1990.

Texas Legislature 83rd Regular Session passed HB 1513 to increase the records management and preservation fees charged by district and county clerks to \$10.00. Fees are going into effect January 1, 2014 with a provision reverting back to the \$5.00 fee effective September 1, 2019.

In presenting my plan I am requesting the fee increase in both records management and archive fee from \$5.00 to the \$10.00.

ARCHIVE PLAN

Fiscal Year 2017-2018

My 2015 plan was to digitize all my marriage license from 1849 to the present and digitize death certificated from 1903 to the present. This was a very large project with about a two year process time. My plan for 2016-2017 is to complete this project. Kofile Preservation has scanned in all images. The next step will be the indexing of all marriage license and death certificates. This will be indexing and then a blind re-key and verification of all documents before release to our system. This also includes disaster recovery electronic off-site backup.

We are just now finishing up my 2016-2017 marriage and death certificate project.

My next project for 2017-2018 will be my DD214/Service Records. I have already began this process with Data Preservation Solutions (DPS) with Commissioners Court approval. With the move back to the courthouse we did not have space to secure these records from the public. DD214/Service Records are not a public record. We will now have a computerized and automated in electronic format to provide copies to the veterans on request.

This to will be done with no cost to the county and will safeguard the records in case of any type of loss. Again most importantly will be space savings.

This year will be a continuation of last year's project along with the DD214/Service Records.

PROJECTED REVENUE

Documents subject to fees are Official Public Record, Civil, and Probate. This will be approximately \$48,000.00 per year.

ARCHIVE PLAN

Introduction

Currently, this office is the custodian of records dating back to the mid 1800's. We are transferring records that were initially only on paper, and those on microfilm, into a digital format and into one program that can be easily retrieved for county and public use. Our ultimate goal is for the District Clerk, Judges and Attorneys to use a more efficient and "paper-on-demand" system. With our current and rising workload, the instilment of a paper-on-demand system with efficient, easy retrieval will be pivotal to the success of the program. The Supreme Court mandated that all counties in Texas (Navarro County by January 1, 2016 and criminal by January 1, 2019) accept electronic filings starting January 1, 2014.

Designation of Court Documents subject to the plan:

All civil and criminal case files, pending, final or disposed. Any other document filed in this office that is subject to the District Clerk's retention schedule.

The Process

To accomplish the disposition of records dating back 160+ years, different methods will be considered.

The archiving of the continuity of records filed daily is done through our software program. Items are scanned to the case management system as they come in and are categorically linked to case numbers and names as an index. Older records that are only on paper are not secondarily stored anywhere else. If they are damaged, lost or destroyed; they are gone.

Our current process digitizes documents, but leaves us with the task of delegating different retention dates of records to see what can be destroyed. The Texas statutes are very complex on the subjects of what documents can be destroyed and when those said documents can be destroyed.

With my office, the judges and the D.A. working toward the same software solution, I see no reason why this initiative would not lead to a more efficient process and help with the reduction of paper.

The Goal

I, as Clerk of the 13th Judicial District, hope to reproduce and archive all documents, regardless of type, as efficiently as possible. I want to achieve, produce and maintain a navigable and organized records vault. The District Clerk's office is also planning the process of restoring historical hand-written records, suspending their deterioration and improving public access.

To complete our efforts toward electronic storage of all case files, we envision maintaining closed cases on our shelves for a short period of time and using computers to access information instantly. This would ultimately lead to a paperless process.

With less cost to the county taxpayers long-term, we will continue this ongoing and efficient process by using the archive and technology fee, coupled with assets allocated to records management by the Navarro County Commissioner's Court, to cover the cost of scanning paper source documents. In addition to preserving the documents, the images will be added to our case management system. This will improve our customer service relations and allow for ease of access to Public Information. Additionally, significant space savings will be realized once paper documents are destroyed.

A portion of the closed cases have been scanned and preserved. Older tri-fold cases (1850's and up civil and tax) are a little more hands on. Our retention schedule requires us to keep everything prior to 1951. The approximate cost of this program **currently** is \$1.25 per document. If the documents are placed in a flat, acid free folder, indexed or styled with the cause number(s) and name(s), it is estimated at \$.45 per document. This includes restoration, a digital and the hard copy sent back to me in the acid free folder in plastic tote boxes, and they keep a secured microfilmed copy on record at the company headquarters. It costs roughly \$1000.00 to fully restore a hand-written, leather bound minute or index book. Several of these as well as an original indictment from infamous outlaw John Wesley Hardin were recently restored. With a competitive market and a fiscally conservative plan, there is no way to know an exact figure that it would take to get our records entirely in order. With the courthouse restoration complete, I plan to use the funds collected from filing fees provided under these statutes, with

Commissioner Courts approval, to digitize and consolidate as many permanent records as possible. The renewal of the state mandated fees are imperative to the integrity and accuracy of our archival program.

Possible Expenditures, including but not limited to:

Computer hardware, including any and all peripherals necessary,
Computer software,
Service provider and other outsourcing services,
Relevant staff salary
Data storage supplies
Travel expenses to and from a service provider to deliver and pickup case documents, if necessary.
Offsite storage unit costs
Document restoration

***UPDATE:**

We have already received our electronic copy of the data from Kofile and it will be integrated into our CMS. They are working on the remainder and will be returned to me (electronic and hard copies) upon request. Those and other historical records are being stored at Ideal Storage. The above data pertains to civil cases, from 1855 – 1900. The next project will focus on the criminal cases from the same period. Any and all other funds appropriated will be used for the purpose of electronic indexing, integration and document restoration. New shelving is required in the vault and the current shelving will rotate (with older files) to Ideal Storage.

HB 2182 effective September 1, 2015 allows for the District Clerk to accept the same fees for County Court at Law cases as District court cases, therefore assessing the District Court Archive and Technology fee to County Court at Law cases. There is now one fee schedule for my office rather than two. (one for each court).

Dear Commissioners' Court and County Auditor:

You have requested that we audit the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Navarro County, Texas, as of September 30, 2017, and for the year then ended, and the related notes to the financial statements, which collectively comprise Navarro County, Texas' basic financial statements as listed in the table of contents.

In addition, we will audit the entity's compliance over major federal award programs for the period ended September 30, 2017. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audits will be conducted with the objectives of our expressing an opinion on each opinion unit and an opinion on compliance regarding the entity's major federal award programs.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension related information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries. We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by accounting principles generally accepted in the United States of America. This RSI will be subjected to certain limited procedures but will not be audited:

- Schedule of Contributions.

Supplementary information other than RSI will accompany Navarro County, Texas' basic financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the supplementary information to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on the following supplementary information in relation to the financial statements as a whole:

- Combining Statements and Schedules

Schedule of Expenditures of Federal Awards

We will subject the schedule of expenditures of federal awards to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the schedule to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the financial statements as a whole.

Data Collection Form

Prior to the completion of our engagement, we will complete the sections of the Data Collection Form that are our responsibility. The form will summarize our audit findings, amounts and conclusions. It is management's responsibility to submit a reporting package including financial statements, schedule of expenditure of federal awards, summary schedule of prior audit findings and corrective action plan along with the Data Collection Form to the federal audit clearinghouse. The financial reporting package must be text searchable, unencrypted, and unlocked. Otherwise, the reporting package will not be accepted by the federal audit clearinghouse. We will assist you in the electronic submission and certification. You may request from us copies of our report for you to include with the reporting package submitted to pass-through entities.

The Data Collection Form is required to be submitted within the *earlier* of 30 days after receipt of our auditors' reports or nine months after the end of the audit period, unless specifically waived by a federal cognizant or oversight agency for audits. Data Collection Forms submitted untimely are one of the factors in assessing programs at a higher risk.

Audit of the Financial Statements

We will conduct our audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America; the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. If appropriate, our procedures will therefore include tests of documentary evidence that support the transactions recorded in the accounts and direct confirmation of cash, investments, and certain other assets and liabilities by correspondence with creditors and financial institutions. As part of our audit process, we will request written representations from your attorneys, and they may bill you for responding. At the conclusion of our audit, we will also request certain written representations from you about the financial statements and related matters.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements or noncompliance (whether caused by errors, fraudulent financial reporting, misappropriation of assets, or violations of laws or governmental regulations) may not be detected exists, even though the audit is properly planned and performed in accordance with U.S. GAAS and *Government Auditing Standards* of the Comptroller General of the United States of America.

In making our risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit. Our responsibility as auditors is, of course, limited to the period covered by our audit and does not extend to any other periods.

We will issue a written report upon completion of our audit of Navarro County, Texas' basic financial statements. Our report will be addressed to the governing body of Navarro County, Texas. We cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement.

In accordance with the requirements of *Government Auditing Standards*, we will also issue a written report describing the scope of our testing over internal control over financial reporting and over compliance with laws, regulations, and provisions of grants and contracts, including the results of that testing. However, providing an opinion on internal control and compliance over financial reporting will not be an objective of the audit and, therefore, no such opinion will be expressed.

Audit of Major Program Compliance

Our audit of Navarro County, Texas' major federal award program(s) compliance will be conducted in accordance with the requirements of the Single Audit Act, as amended; and the Uniform Guidance, and will include tests of accounting records, a determination of major programs in accordance with the Uniform Guidance and other procedures we consider necessary to enable us to express such an opinion on major federal award program compliance and to render the required reports. We cannot provide assurance that an unmodified opinion on compliance will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or withdraw from the engagement.

The Uniform Guidance requires that we also plan and perform the audit to obtain reasonable assurance about whether the entity has complied with applicable laws and regulations and the provisions of contracts and grant agreements applicable to major federal award programs. Our procedures will consist of determining major federal programs and performing the applicable procedures described in the U.S. Office of Management and Budget *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each of the entity's major programs. The purpose of those procedures will be to express an opinion on the entity's compliance with requirements applicable to each of its major programs in our report on compliance issued pursuant to the Uniform Guidance.

Also, as required by the Uniform Guidance, we will perform tests of controls to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with compliance requirements applicable to each of the entity's major federal award programs. However, our tests will be less in scope than would be necessary to render an opinion on these controls and, accordingly, no opinion will be expressed in our report.

We will issue a report on compliance that will include an opinion or disclaimer of opinion regarding the entity's major federal award programs, and a report on internal controls over compliance that will report any significant deficiencies and material weaknesses identified; however, such report will not express an opinion on internal control.

Engagement Administration, Fees and Timing

We will schedule the engagement based in part on deadlines, working condition, and the availability of you key personnel. We will plan the engagement based on the assumption that you personnel will cooperate and provide assistance by performing tasks such as preparing requested schedules, retrieving supporting documents, and preparing confirmations. If for whatever reason your personnel are unavailable to provide the necessary assistance in a timely manner, it may substantially increase the work we have to do to complete the engagement within the established deadlines, resulting in an increase in fees over our original fee estimate.

The timing of our audit will be scheduled for performance and completion as follows:

Document internal control and preliminary tests	September 2017
Mail confirmations	October 2017
Perform year-end audit procedures	February 2018
Issue audit reports	March 2018
