NAVARRO Commissioners Court agrees that the expenditure of the funds will be in accordance with applicable federal and state law and any agreement between NAVARRO County and the State of Texas, Office of the Secretary of State as authorized under Section 101 of the Help America Vote Act of 2002 and in consultation and agreement with the county election official(s) as defined in Sections 12.001 and 31.091 of the Texas Election Code.

NAVARRO Commissioners Court agrees to assign a single point of contact (SPOC) to act on behalf of the county in communicating with the Office of the Secretary of State, including the submission of all necessary reports.

NAVARRO Commissioners Court agrees claims against the fund shall be audited and approved in the same manner as other claims against the county before they are paid.

NAVARRO Commissioners Court agrees that it will not consider the availability of the funds in adopting the county budget.

NAVARRO Commissioners Court agrees that in the event of loss, misuse, or noncompliance pursuant to any grant award agreement with the Secretary of State, NAVARRO Commissioners Court assures that the funds will be returned to the Office of the Secretary of State in full.

State Voting System Certification

If equipment or software is being acquired that requires Secretary of State prior approval pursuant to Section 123.035 of the Texas Election Code, the county must comply with the following:

1. Provide a copy of the relevant portions of the contract containing the identifying information that the Secretary of State needs to determine whether the version of what is being acquired under the contract complies with the applicable requirements.
2. The county may not expend funds unless it has received a letter from the Secretary of State confirming that the acquisition under the contract satisfies the applicable requirements for approval.

Financial Management Standards

The financial management system of the county must meet the following standards:

1. Financial reporting. Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant award.
2. Accounting records. The county must maintain records which adequately identify the source and application of funds provided for financially-assisted activities. These records must contain information pertaining to grant awards and authorizations, obligations, un-obligated balances, assets, liabilities, outlays or expenditures, and income.
3. Internal control. Effective control and accountability must be maintained for all grant award cash, real and personal property, and other assets. The county must adequately safeguard all such property and must assure that it is used solely for authorized purposes.
4. Budget control. Actual expenditures or outlays must be compared with budgeted amounts for each grant award. Financial information must be related to performance or productivity data, including the development of unit cost information whenever appropriate or specifically required in the grant award agreement. If unit cost data are required, estimates based on available documentation will be accepted whenever possible.
5. Allowable cost. Applicable OMB cost principles, agency program regulations, and the terms of grant award agreement will be followed in determining the reasonableness, allowability, and allocability of costs.
6. Source documentation. Accounting records must be supported by such source documentation as canceled checks, paid bills, payrolls, time and attendance records, contract and grant award documents, etc.
7. The Secretary of State or its designee may review the adequacy of the financial management system of any applicant for financial assistance as part of a pre-award review or at any time subsequent to award.

Procurement

The county shall use its own procurement procedures and regulations, provided that the procurement conforms to applicable laws and the standards identified in Chapter III (State Uniform Administrative Requirements for Grants and Cooperative Agreements), Subpart C, Section 36 of the Uniform Grant Management Standards.

Property Management

Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place will, at a minimum, meet the following requirements:

1. Property records must be maintained that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date and cost of the property, percentage of the Secretary of State participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.
2. A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.
3. A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated. Certain types of equipment are classified as "controlled assets". The Comptroller's State Property Accounting User Manual, available on the Internet, contains the most current listing.

4. Adequate maintenance procedures must be developed to keep the property in good condition.
5. Counties should attempt to get trade-in value or sell HAVA-funded equipment after it is no longer needed for its original intended purpose, and use the proceeds toward replacement equipment or other related activities. Proper sales procedures must be established to ensure the highest possible return.

Records Retention

1. The county must maintain records for at least three years following the submission of the final expenditure report.
2. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

Compliance Reviews

1. Compliance reviews include programmatic and financial auditing.
2. The Secretary of State reserves the right to conduct its own audit or contract with another entity to audit the county.
3. The Secretary of State or its designee may conduct compliance reviews throughout the existence of a grant or conduct an audit after the grant period has ended. The county must make all grant-related records available to the Secretary of State or its representatives unless the information is sealed by law.
4. Compliance reviews may be on-site or desk reviews and may include any information that the Secretary of State deems relevant to the project.

Remedies for Noncompliance

If a county fails to comply with any term or condition of this award agreement or any applicable statutes, rules, regulations, or guidelines, Secretary of State may take one or more of the following actions:

1. Require the return of funds if disbursements have already been made.
2. Temporarily withhold all payment to the county pending correction of the deficiency by the county.
3. Temporarily withhold all payments for other HAVA grant funds awarded to the county pending correction of the deficiency by the county.
4. Disallow all or part of the cost of the activity or action that is not in compliance.
5. Impose administrative sanctions, other than fines, on the county.
6. Withhold further HAVA grant funds from the county.
7. Terminate the award agreement in whole or in part.
8. Exercise other remedies that may be legally available.

Collection of Amount Due

Any funds paid to the county in excess of the amount to which the county is finally determined to be entitled under the terms of the award constitute a debt to the Secretary of State. If not paid within 30 days after demand, the federal or state agency may reduce the debt by:

1. Making an administrative offset against other requests for reimbursements;
2. Withholding payments otherwise due to the county; or
3. Other action permitted by law.

Except where otherwise provided by statutes or regulations, the federal government may charge interest on an overdue debt in accordance with the Federal Claims Collection Standards (4 CFR Ch. II). The date from which interest is computed is not extended by litigation or the filing of any form of appeal.

If **Owner** shall fail to timely commence or cause to be commenced, or fail to diligently prosecute to completion, such Remedial Work, **the County** may (but shall

not be required to), after first giving **Owner** thirty (30) days notice of its failure and **Owner's** continued failure to perform, cause such Remedial Work to be performed and **Owner** will reimburse all reasonable costs of same on demand. The provisions of this Article shall not constitute approval or obligate **The County** or the surface owner to consent to the imposition of any engineering or institutional control that would restrict or limit future use of the License area for any purpose including, without limitation, any deed restriction or limitation on the use of groundwater or use of the property for residential purposes. **Owner** will notify **the County** and surface owner of any claim or other action by any governmental agency or any third party involving the actual or alleged existence of Hazardous Materials on the License area or any adjoining property and provide **the County** and surface owner with copies of (1) any notice of any actual or threatened release of Hazardous Materials given by **Owner** pursuant to any law and (2) any report of and response to any such release including all Remedial Work. **Owner**, its successors and assigns, in accordance with the provisions of Article 8, will release, indemnify, pay and protect, defend and save the Indemnified Parties harmless from all claims, liabilities, fees and expenses of any kind (including reasonable attorneys' fees, expert fees and costs) that arise from the actual or alleged presence or release of any Hazardous Materials in connection with the operations of **Owner** and **Owner's** agents, invitees, guests, contractors, servants and employees on the License area or any adjacent property. Such indemnification shall include, without limitation, costs in connection with any Remedial Work performed by **the County**, surface owner, or any third party in response to any federal, state or governmental authority, laws or regulations, due and payable upon demand by **the County** or adjacent surface owner. **Owner's** obligations herein shall survive the termination of this License.
