RE: Operating Fund

Dear Commissioners Court,

Due to the increased cost incurred by the Navarro Soil & Water Conservation District, the District request an increase in its monthly operating fund. The District currently receives \$3000.00 a month from our Flood Control Fund. On May 26, 2021, at the monthly Board Meeting, the Directors discussed and agreed that the current operating fund was insufficient and should be increased to \$6000.00 a month from the Districts Flood Control Fund. The Directors request this increase in the monthly operating fund effective August 1, 2021.

Sincerely,

Conrad Newton
Chairman of the Board
