

2/11/2022

Mr. James Olsen:

As we are all aware of, the cost of fuel has increased significantly over the last few months. We have been told by our government that it is going to continue to increase throughout the year. Havoc Transportation Demolition, LLC is sending this letter in request of a rate increase of 15% for our current contracts on pct 1 and pct 4 to help offset the current increase. Havoc Transportation Demolition, LLC understands that this is being felt by every business as well as for our county. With that statement being made, we hope you can understand the need for this request. We would like for this to go into effect immediately if possible. You may contact us regarding this request @ (903)257-5365.

Thank you,

Havoc Transportation Demolition, LLC

Jason Drain
