

OnMed

INNOVATION FOR REAL

WHO WE ARE

OnMed

PURPOSE

Develop and deliver a comprehensive solution for access to quality affordable care for everyone regardless of where they work, live or play.

SOLUTION

A remote Care Station leveraging technology and innovation for a unique patient and clinician experience. Full integration of new diagnostic tools, patient care technologies and access without complexity or boundaries.

UNDERSTAND THE MARKET

We have designed and leverage technology in a new care platform, connecting clinicians in a meaningful way for the ultimate patient experience. Our solution delivers access anywhere, anytime with a user-friendly and exceptional patient experience.

INTRODUCING THE OnMed Care Station

The Future is Now.

MINIMAL ACCESS IN REMOTE AREAS

- 135 rural hospitals closed since 2010
- Difficulty recruiting qualified clinicians to remote areas.

LACK OF AVAILABLE APPOINTMENTS

- Nationwide shortage of primary care physicians leads to long wait times.
- Shortage of 13k+ PCP's.

BURDEN OF APPOINTMENT TRAVEL

- Rural Americans live much further from healthcare facilities, which further contributes to them delaying timely, preventative care.

NEED FOR MULTI-SERVICE APPOINTMENTS

- OnMed provides a comprehensive patient care experience through the onboard diagnostic equipment.

INDIGENT AND EMERGENCY IMPACT

- Approximately 28% of Americans have Medicaid or are uninsured.
- Lack of acceptance for these patients leads to overutilization of ERs.

CONVENIENCE

- Long wait times, confusing referral process, and cost all contribute to rural and indigenous Americans to delay preventative care.

CURRENT STATE

MARKET VALIDATION

The issue is greater than the illness

30M

Roughly 30 million Americans of all ages had no health insurance in 2021.

75%

75% of people in the ER have non emergent issues

13K+

Shortage of primary care physicians across the USA

135

More than 135 hospitals have closed since 2010 and another 453 are at risk of closure

60M

About 1 in 5 Americans live in rural America

26

In 2022, the average days to get an appointment

~1M

975K Uninsured

hospital closure locations

CHANNEL AND MARKET

FOCUSED ON KEY CHANNELS AND MARKETS THAT NEED OUR SOLUTION THE MOST

MEDICAID

UNINSURED

GROWING OPPORTUNITIES

TOP PROSPECTS IN PROGRESS

THE DIFFERENCE

- ✓ **FULL SERVICE**
80-85% of primary care visits treated
- ✓ **SAFE and SECURE**
The station is cleaned with UV light after every consultation
- ✓ **PRESCRIPTIONS**
Medication dispensing onsite
- ✓ **AFFORDABLE**
The cost of the station or a single visit is a fraction of the current options.
- ✓ **VITALS**
They call them vitals for a reason. We provide technology to capture vitals onsite.
- ✓ **ACCESSIBLE**
Our healthcare station can be located in rural or urban locations with 7 days access

USER EXPERIENCE

CREATING REAL CONNECTIONS BETWEEN PATIENTS AND CLINICIANS

WE DISPENSE MEDS

ONSITE

Our Care Stations are equipped with a secure pharmacy vault for instant dispensing of medication.

E-PRESCRIBE

Clinicians can also E-Prescribe to the patient's requested pharmacy.

SAFETY AND SECURITY

UV LIGHTING

After every consultation, the station is blasted with UV lighting to eliminate viruses and bacteria.

AIR PURIFICATION

HEPA air filtration system that kills 99.9% of viruses and bacteria.

DISINFECTED

Regular onsite cleaning to remove dirt, debris and fingerprints from surface.

ANTI-MICROBIAL

Internal surfaces are comprised of materials with proven antimicrobial features.

CLINICIAN PROFILE

KEY ADVANTAGES FOR CLINICIANS

SCHEDULE FLEXIBILITY

Clinicians can work full time or part time with flexibility in their schedules.

WORK FROM HOME

Our model allows clinicians to work from home giving them the flexibility and convenience. We believe at scale +80% will work from home.

PAYMENT METHODOLOGY

We offer both full time and part time positions with hourly financial models including bonus system for performance

RECRUITING AND RETAINING

We have developed a model that gives us a distinct advantage with pay and work environment that allows us to recruit and retain at a higher rate than the market. We will continue to mature our offering to stay at the top of the market that allows us to scale.

"THEY'RE CALLED VITALS FOR A REASON"

Our Care Stations are equipped with technology, enabling clinicians to better diagnose and treat each patient. Our team relentlessly pursues the ultimate experience for both patient and clinician. We will continue to add other innovative technologies in the future.
