Honorable H.M. Davenport  
County Judge of Navarro County  
300 West 2nd Avenue, Suite 102  
Corsicana Texas 75110

Dear Judge Davenport:

As we discussed by phone, Navarro County's financial support of the Corsicana Navarro County Health Department dropped from \$6,667.67 per month to \$4,166.67 per month. This is an annual decrease from \$80,000 to \$50,000. We were not expecting this and we budgeted the original amount for our fiscal year. You suggested that I write a letter in order to request that the commissioners consider reinstating the support that Navarro County has been so generous to grant us in recent years. I am writing the commissioners and the county auditor also.

Terri Gillen said that we did not submit a letter request for the health department's annual support. As you know our previous financial manager walked away from her job at the health department without notice. Neither our director of nurses nor I knew of this need to reapply annually. In addition our separation from the landlord at 618 N Main and our diversion of income streams to them left us somewhat wanting in our finances. We did these things in order to help the formation and function of the newly formed Dr. Kent Rogers Clinic, especially during its seminal beginning. Ultimately, and unfortunately, the separation became a bit acrimonious. We were forced to find a better location at our 115 W Collins location.

The health department receives a good portion of its monies from the State of Texas. All of those monies are tethered to certain functions that the health department is mandated to perform. We can use it for salaries of the personnel performing those functions. We are still dependent on county and city support for monies that are untethered to specific functions. Our city and county support is still necessary for our general overhead, things like rent, utilities, insurance, housekeeping, supplies, and unforeseen needs.

Please ask the commissioners to reconsider and reinstate the generous support that Navarro County has provided to us in the past. The health department is still committed to its mission that it has pursued since 1941. I can be more specific in our needs if you so desire.

Sincerely,

Neal Green, MD  
Director
