# Take control of sending challenges.

## Mail, ship and track with ease.

The SendPro MailCenter 1000 simplifies your sending processes by integrating mailing and shipping into a single system. The MailCenter 1000 provides a modern user experience making sending anything easier and more streamlined.

With fast automatic-feeding, you can quickly process high volumes of mail, easily ship through USPS®, FedEx® and UPS® and track packages all from one reliable system, improving productivity and creating new levels of efficiency for your organization.

For letter mail, the MailCenter 1000 will seal and print postage at up to 180 letters per minute. It handles thin or thick mail at up to 5/8 of an inch thick.

- Minimize downtimes and jamming with reverse separation feeding technology.
- Automatically save on every First Class® letter you send and gain access to additional savings, such as presort rates.

 **UNITED STATES  
POSTAL SERVICE®**  
Approved IMI Postage Solution

For more information, visit us online: [pitneybowes.com](http://pitneybowes.com)

For overnight deliveries and package shipments, the available shipping functionality allows you to compare services for USPS, FedEx® and UPS® so your packages are sent with the best cost and delivery option available. You will also gain complete visibility into your shipping history, package tracking and carrier spend, all in one place.

- Access special discounts with USPS® and UPS® or use your existing business accounts
- Accurately weigh packages and print professional looking shipping labels right from the integrated scale and connected shipping label printer

## Intuitive user display

The 15" modern, color touch screen display on the SendPro® MailCenter 1000 simplifies the way users interact with the system and process each job. Users can benefit from easy-to-follow menus for the streamlined processing of mail and packages.

## Flexible printing

Save on pre-printed stationary costs and increase the opening potential for your mail. The MailCenter allows you to print your business logo, return addresses, promotional messages, or graphics directly onto your outbound envelopes at the same time it prints postage for a more professional look.

## Available desktop shipping

The SendPro MailCenter 1000 enables users outside the mail area to ship packages from their individual PCs with PitneyShip™ or PitneyShip™ Pro, our online shipping software powered by the Shipping 360™ platform, which allows office workers to access the same shipping capabilities on the MailCenter at their desk to send or track a package delivery.
