CORPORATION

Corporate Overview

Government Capital Corporation (GCC) was founded in 1992 with the primary purpose of providing tax-exempt financing solutions for state and local government entities including cities, schools, counties, and special districts. Since our inception, GCC and its affiliates have provided financing solutions exceeding \$6 billion for many different types of projects. These financings have provided funding for a wide variety of municipal needs including vehicles, technology, facilities, and heavy-duty equipment. Our team possesses extensive experience assisting state and local governmental entities of all types in creating, evaluating and implementing financing structures of every type authorized by various state borrowing authorities. Although we serve clients in all 50 states, since Texas is our home, one of our primary areas of focus is assisting Texas counties with acquiring essential personal property and equipment. Since our inception, we've been honored to provide financing solutions for 152 Texas counties, representing 60 percent of the counties in the state. In many cases, we have helped our clients adapt to and comply with regulatory changes as well as enable them to execute financings more rapidly, efficiently, and economically.

Representative Experience

Webb County - Government Capital Corporation's relationship with Webb County has spanned over two and a half decades and involved a wide variety of projects. From the first acquisition of computer equipment in 1998 to modular buildings and copiers in the early 2000s to the more recent acquisitions of software, vehicles, and heavy work equipment, Government Capital has become Webb County's trusted go-to partner for all their financing needs.

Jim Wells County - Government Capital and Jim Wells County have partnered together on over two dozen financings since 2011. The transactions have facilitated a large array of acquisitions including police vehicles, election equipment, fire trucks, and more. In 2022 alone, GCC provided funding for sheriff vehicles, a motor grader, and a work truck for the county's infrastructure projects.

Hudspeth County - Hudspeth County and GCC have worked together since 2010 on multiple equipment acquisitions. At the end of 2022, Government Capital funded the purchase of a Freightliner work truck for the county's Solid Waste Department. The addition of the truck to the fleet allowed for shorter and more efficient routes, saving the department miles and manhours.

Runnels County - Runnels County has turned to Government Capital to fulfill their financing needs since 2002. GCC has provided funding for the acquisition of software and a variety of heavy equipment including Freightliner work trucks, tractors, and a water truck. Most recently, Runnels County partnered with Government Capital to acquire updated election equipment, providing its citizens with a more efficient and secure voting process.

Henderson County - Government Capital has partnered with Henderson County on multiple projects since 2007. In recent years, GCC has funded the acquisition of numerous types of heavy equipment including a reclaimer, a track loader, and a site boss. The equipment has been used throughout the county to improve infrastructure and serve the community.

Zapata County - Government Capital has provided financing for Zapata County for over 20 years. With GCC's assistance, the county has acquired software, waste disposal vehicles, a body scanner, and other essential equipment. Additionally, Government Capital provided funding to the county's Water Works Department for a sewer and water meter improvement project.

Montague County - Montague County and Government Capital have partnered together for more than a decade on over a dozen financings. Most recently, GCC provided funding for the acquisition of a drum roller, multiple vehicles, and a motor grader for the county's infrastructure improvement projects.

The "Standard Warranty" is part of the warranty protection package available from John Deere Construction & Forestry Company (John Deere Limited in Canada) ("John Deere") to purchasers of new John Deere products ("product"):

STANDARD Warranty is John Deere's standard new product warranty, described in this document, provided at no additional charge to the purchaser.

EXTENDED Warranty is a separate repair contract made available by John Deere for purchasers who wish to complement their Standard Warranty coverage. Complete Extended Warranty details, including coverage options and limitations, are set forth in the Application for Extended Warranty, which is available from authorized John Deere dealers.

STRUCTURALL Warranty applies to certain structural components as listed below and as described in this document.

FACTORY-INSTALLED UNDERCARRIAGE Warranty applies to certain undercarriage components as listed below and as described in this document.

A. STANDARD WARRANTY - GENERAL PROVISIONS

John Deere will repair or replace, at its option, any parts (except those specified below) of a new John Deere product that, as delivered to the original retail purchaser(s), are defective in material or workmanship. Performance of this warranty will be free of charge for parts and labor, except as otherwise stated below. Standard Warranty applies only to purchases from John Deere and authorized John Deere dealers and, except as otherwise provided in the next sentence and section L below, is extended only to the original retail purchaser of the product. Remaining Standard Warranty applicable to a used John Deere product is transferred to a subsequent purchaser of the product only if the subsequent purchaser requests a transfer from an authorized John Deere dealer before the product's Standard Warranty expires. Coverage begins on the date of delivery of the product to the original retail purchaser. For purposes of this warranty, a product that has been rented, used for demonstration purposes for 150 or more hours, or otherwise used prior to its original retail purchase has been "used" for the total duration of such use. Warranty statements required by law covering engine emissions-related parts and components are found on a separate written warranty certificate provided to the purchaser at the time of the original retail purchase.

B. WHAT IS COVERED BY STANDARD WARRANTY -

All parts of a new John Deere product (except those noted in Sections D and E below) are covered during the Standard Warranty period set out above.

C. EXCLUSIVE REMEDY -

The repair or replacement of covered parts or components that are defective, as provided in Sections A, B, D.2 and D.3 herein, shall be the purchaser's exclusive remedy for any defect in the product. However, if after repeated attempts such repair or replacement fails to correct the performance problem caused by the defect, the purchaser's sole remedy shall be a refund of the amount paid for the product (in exchange for a return of the product), excluding any transportation charges, license fees, taxes and insurance premiums, and less a reasonable allowance for use of the product prior to its return. In no event will the dealer, John Deere or any company affiliated with John Deere be liable for any incidental or consequential damages, including but not limited to loss of profits, rental of substitute equipment or other commercial loss. Correction of defects in the manner provided above shall constitute fulfillment of all liabilities of the Dealer, John Deere, or any company affiliated with John Deere to the purchaser or any other person, whether based upon contract, tort, strict liability, or otherwise. This limitation does not apply to claims for personal injury.

D. ITEMS COVERED SEPARATELY -

1. Standard Warranty does not apply to batteries, radios, tires, cameras, or to Cummins, MTU or Detroit Diesel Engines installed in John Deere products, which are covered by separate written warranties.
2. For purposes of this warranty, a product that has been rented, used for demonstration purposes for 150 or more hours, or otherwise used prior to its original retail purchase has been "used" for the total duration of such use. In addition to the items listed in section E below, Factory-Installed Undercarriage Warranty does not cover: failures due to wear, machine application, maintenance practices, or improper machine configuration; removal and installation labor; transportation or hauling costs; unapproved parts; non-wear items; and rubberized undercarriage components such as rubber tracks. Warranty claims will be pro-rated based upon wear of the failed component and whether track shoe width is approved by John Deere. Factory-Installed Undercarriage Warranty does not apply to Scraper Tractors.
3. StructurALL Warranty for new John Deere Products (except Compact Excavators & Loaders, Skid-Steer Loaders, Compact Track Loaders, Scraper Tractors, Pull-Type Scrapers, and Forestry Attachments, which are not eligible for StructurALL Warranty) begins at the date of delivery to the original retail purchaser and ends (unless terminated earlier under Section F, below) after three (3) years, or 10,000 hours (whichever occurs first).
